

## Books:

1. V. Zablotskii & T. Polyakova. ***Beauty and Magic of Physics in Qualitative Problems***. Białystok University Press, 2005, ISBN: 8374310480, Białystok, Poland.
2. V. Zablotskii, O. Lunov, T. Polyakova, A. Dejneka. ***Biology and Magnetism: Mutual Attraction***. Prague. Institute of Physics, Publisher: Czech Academy of Sciences, 2017, ISBN: 978-80-905962-6-9 (131 p), in Czech language.
3. V. Zablotskii, V., & T. Polyakova. (2024). ***Shadowless Squids: Stories of Physics in Nature*** (1st ed.). Jenny Stanford Publishing. ISBN 9789815129434, 304 Pages, 34 Color & 1 B/W Illustrations

## Book chapters:

1. Chapter 3: *“Hysteretic Properties of Magnetic Composite Microwires”* by A. Chizhik, A. Stupakewicz, V. Zablotskii, A. Zhukov, A. Maziewski, and J. Gonzalez, pages 43-57. In *“Hysteresis, Types, Applications and Behavior Patterns in Complex Systems”*. Editor Jose Carlos Dias. Nova Science Publishers, Inc. 2014, New York, p.304. ISBN: 978-1-63321-336-4.
2. Chapter 5: *“Controlling Cell Membrane Potential with Static Nonuniform Magnetic Fields”* by V. Zablotskii, T. Polyakova, A. Dejneka. Springer Nature Singapore, 2023, Ed. Xin Zhang. 420p. ISBN: 9789811988684. (pp 113-131).
