## Ivo Stachiv

Research programme expert at The European Research Council - Executive Agency  
(ERCEA)

## Opportunities for funding at the ERC

The purpose of this colloquium is to introduce news, updates, and opportunities for funding at the European Research Council (ERC). This talk will be separated into three parts. In the first part, the introduction of the ERC and ERCEA will be given. The second part will cover the funding schemes and opportunities within individual calls (i.e., StG, CoG, AdG, SyG, PoC). In the final part of the talk, the technical issues related to the preparation of the project will be discussed, addressing key points.
